F95Zone sync

Auto-associate games and check for updates.

Full sync
ignores the 24h cooldown

Start sync

COOKIES	LAST SYNC	UPDATES
OK	2h ago	17 ready
F95Zone session available	0 failures	across 12 games

What will run

3 steps · about 4 minutes

- ✓ 81 games checked for new versions — 81
- ✓ 17 updates downloaded and merged — 17
- ✓ 12 unlinked games matched to F95Zone threads — 12

RECENT RUNS

WHEN	RUN	RESULT	DURATION	STATUS
Today 09:14	Full sync	17 updates	4m 12s	Complete
Yesterday	Quick check	No updates	1m 40s	Complete
2d ago	Quick check	3 updates	2m 06s	Complete

How sync stays polite

- ✓ One request at a time
- ✓ 24h cooldown between full syncs
- ✓ Browser only for security checks

Sync runs in the background; you can keep browsing and launching games.

WHAT HAPPENS NEXT

1. Moxie reads the folder and identifies the engine.
2. It finds the executable and estimates the install size.
3. The game appears in Library; add metadata from F95Zone.

The folder must contain the game executable or a recognizable engine signature.

Adding a folder of games?

Scan a directory tree, detect every engine and add everything at once.

Open Scan

- RPGM — 24 games
- Ren'Py — 31 games
- Unity — 9 games
- Other — 17 games

You can also drag a folder onto the window.

What emptying Trash removes

Empty trash

- ✗ The game folder on disk
- ✗ Metadata, tags and cached covers
- ✓ Save snapshots and play history are kept

No more deleted games

Games you remove appear here for 30 days before they are purged.

Deleted games keep their launches and save snapshots until you empty the trash.
